

Group Supply Chain Management

leverage scale and maximize savings

Benefits

- Group Purchasing; leverage the buying power of the group
- Central/clustered purchasing; share purchasing expertise across the group and reduce the cost of purchasing
- Electronic collaboration with suppliers
- Uniform financial controls
- Eliminate duplication of work
- Share information across the group
- Reduce ICT costs
- A single procurement platform for all supplies
- Eliminate rogue purchases
- Always buy the right product from the right supplier at the right price
- Measure performance of each site and supplier across the group

Connecting the group

MBT offers a unique solution for groups that connects all their sites together to enable the business to take full advantage of scale:

- Group Purchasing. Purchasing statistics are automatically consolidated enabling purchasing managers to easily negotiate better deals leveraging the buying power of the group.
- Central/Clustered Purchasing. Share the purchasing expertise and lower the cost of the purchasing function across the group.

Moreton Bay Technology (MBT)

MBT has been developing materials management applications for the hospitality industry worldwide for over 21 years. MBT works with the best known brands in hotels, restaurants, café, casino, convention centre, sports stadium, cruise liner, airport and catering.
